SUMMARY

Versatile and accomplished professional with a strong foundation in Frontend programming and proficiency in Java, Python, and C. Adept at translating complex technical concepts into user-friendly solutions, I bring a unique blend of creativity and precision to software development. My expertise extends beyond code, encompassing effective problem-solving and communication skills, as demonstrated during my impactful role as a Teaching Assistant where I successfully addressed over 1000 student queries.

Committed to continuous learning, I stand out as a proactive and dynamic individual poised to contribute to innovative projects and drive success in any collaborative team environment.

EXPERIENCE

Teaching Assistant

Coding Ninjas

📅 10/2022 - 03/2023 📍 Remote

Online Learning Platfrom

- As a Teaching Assistant during my internship, I played a pivotal role in fostering a supportive learning environment. I actively engaged with students, addressing and resolving a diverse range of academic queries, ultimately contributing to the successful resolution of over 1000 student doubts. This experience not only honed my interpersonal and communication skills but also demonstrated my commitment to facilitating an enriching educational experience. Through my responsiveness and dedication, I fostered an atmosphere conducive to student success, further solidifying my passion for education and collaborative learning.

Quality Analyst

Dell Technologies

📅 06/2023 - Present 📍 Bengaluru

Dell R&D Center Bangalore

- Achieved proficiency in both manual and automated testing methodologies, significantly enhancing the efficiency and accuracy of software testing processes within the company. Additionally, developed comprehensive knowledge in Dell server hardware and software components, enabling effective troubleshooting and optimization strategies, thereby contributing to streamlined operations and enhanced performance
